THE MANOR HOUSE

The Manor House was described by Alan Titchmarsh, patron of the Trust, as 'the jewel in Ilkley's crown'. The vision for this lively space is to develop a creative heritage, arts, learning and leisure centre based round the Manor House, its cottages and its wonderful courtyard. The aim is to capitalize on the historic appeal of the Grade 1 listed building and the unique location between the town and the Riverside Gardens, adjacent to All Saints Church and the Roman Fort to create a unified site, working alongside the church, with heritage exhibitions that will engage the arts, culture and leisure sectors. The cottages will be used by creative industries as studio spaces and start-up business lets to create an enterprising unique development in Ilkley.

WHITE WELLS AT WHITE WELLS SPA COTTAGE

There has been bathing at White Wells since 1703 when there was a bath to the rear of the premises. This was replaced in 1791 by two baths, one of which is on display today. Although the water has no significant mineral content it is the coldness of the water which stimulates the circulation.
